\$4,495

**“Out the Door”
Special!**

**4,500 lb. Capacity
Walkie Pallet Truck**

Attention all material handling businesses! Get More for your money! Doosan's B23S-7 electric powered Walkie pallet trucks provide excellent mobility. Curtis solid state controllers provide smooth acceleration, and seamless directional control. Its Regenerative Braking feature adds energy back to the battery to improve efficiency. With AC Power, you will benefit from faster acceleration, more torque, higher efficiency, and lower maintenance costs due to the brush-less design.

For an unbeatable price of 4,495, you can have this top-performing Doosan walkie on your site. The **Doosan BW23S-7** is a top-of-the-line model that delivers maximum performance, reliability, and efficiency!

Don't miss this opportunity to own a brand-new B23S-7 Walkie Pallet truck for a fraction of the cost. Our special program makes it possible for you to improve your operations and increase productivity, without breaking the bank. Review our entire inventory of units [In stock!](#) for immediate delivery

In 2023, the state of Washington is rolling out a Clean Fuels Program (CFP). The B23S-7 qualifies for a credit! [Contact MidCo](#) now to take advantage of the CFP and this limited time offer!
